

Todd Erickson

VP-Provost (Responsible for academic, financial planning, strategic partnerships, enrollment planning)

Trinity Western University

Vancouver, Canada

The Anderson DBA is certainly an effective program to meet the requirements of someone who might be interested in HE administration. My work in the program was well received here and has obviously allowed me to proceed on to higher levels of responsibilities. I really like this approach since doctorate of education or higher education degrees tend to portray their holders as separate from faculty. I find that this degree supports my faculty status very well which is so important for maintaining credibility as an administrator.
