Anderson University Introduces New Online "Photoshop Elements 7 for the Digital Photographer II" Course

Anderson, IN -- Anderson University has a program that makes it easy to take high-quality, noncredit online courses. Anderson University has partnered with ed2go to offer hundreds of online, instructor-facilitated courses and is pleased to announce the launch of "Photoshop Elements 7 for the Digital Photographer II."

This course will teach those who already know the basics of Photoshop Elements how to do detailed photo editing, build collages, restore old photos, and more. Through easy-to-understand lessons and hands-on exercises, participants will find it easy to take their photo-editing skills to the next level.

"Photoshop Elements 7 for the Digital Photographer II" is part of Anderson University's growing catalog of more than 300 instructor-facilitated online courses. Through well-crafted lessons, expert online instruction, and interaction with fellow students, participants in these courses gain valuable knowledge at their convenience. They have the flexibility to study at their own pace combined with enough structure and support to complete the course. And they can access the classroom 24/7 from anywhere with an Internet connection.

New sessions of each course run every month. They last six weeks, with two new lessons being released weekly (for a total of 12). The courses are entirely Web-based with comprehensive lessons, quizzes, and assignments. A dedicated professional instructor facilitates every course; pacing learners, answering questions, giving feedback, and facilitating discussions.
