

Advanced Placement Credit

The College Board offers Advanced Placement Examinations annually, each based on a typical college-level course. These examinations are designed for students who have had special secondary school preparation. Below are listed the AP Examinations Anderson University currently accepts for credit. Semester-hour credit may be awarded for grades of 4 or 5 (honors and high honors), with some placement credit for a score of 3, except as indicated below. Electives can be used to fill the credit-hour requirement needed for graduation.
