

Verification Worksheet (V1)

Independent Student 2018-19

Your FAFSA was selected for review in a process called "verification." Federal law requires that Anderson University compare your reported FAFSA data to the tax information you and your parent(s) provided the Internal Revenue Service (IRS) for 2016. The preferred method is for you to import the tax data from your 2016 tax return using the IRS Data Retrieval Tool (DRT) and resubmit your FAFSA without changing the imported data. It may be necessary for you to provide additional information to satisfy verification requirements.

No further action can be taken on your request for financial aid including all federal, state, or need-based university funds until you submit the required information and complete this process.

If there are differences between your FAFSA data and the verification documents, Anderson University will make corrections electronically. Your financial aid awards may be adjusted as a result of the correction process.

- An unborn child who will be born during the 2018-18 school year may also be counted in the household size if the student and spouse will provide more than half of the child's support between July 1, 2018 and June 30, 2019.

- Include other people if they now live in the student's household and if the student or spouse provides more than half of their support and will continue to provide more than half of their support between July 1, 2018 and June 30, 2019.

D. Tax Filers

Complete Section D if the student or spouse have filed or will file a 2016 IRS income tax return. The best way to verify income is by using the IRS Data Retrieval Tool (DRT) that is part of *FAFSA on the Web*. In most cases, no further documentation is needed to verify 2016 income information IF you transfer the data into the student's FAFSA using the Data Retrieval Tool AND you do not make any changes to the imported information. Please resubmit your FAFSA once the Tool has been used.

Please check all that apply.

- The student has used the Data Retrieval Tool in *FAFSA on the Web* to transfer 2016 IRS income tax return information into the student's FAFSA.
- The student has not yet used the Data Retrieval Tool in *FAFSA on the Web*, but will use the Tool to transfer 2016 IRS income tax return information into the student's FAFSA within 2-3 weeks after e-filing.
- The student is unable or chooses not to use the Data Retrieval Tool in *FAFSA on the Web*, and instead will provide Anderson University a 2016 IRS Tax Return Transcript.
- The student and spouse filed separate 2016 IRS income tax returns, and each will provide their own 2016 IRS Tax Return Transcript, since using the Data Retrieval Tool is not an option.

For helpful details on when and how to use the IRS Data Retrieval Tool and options for requesting an IRS Tax Return Transcript visit the AU website <http://www.anderson.edu/finaid/verification>. In most cases the IRS makes tax return information available for the Data Retrieval Tool and the Tax Return Transcript within 2–3 weeks after they accepting your e-filed tax return.

E. Nontax Filers

Complete Section E if the student or spouse will not file and are not required to file a 2016 income tax return with the IRS.

Please check all that apply

NEW for 2018–2019!

If you are the parent of a dependent student, submit an IRS Verification of Nonfiling Letter. The federal government now requires the parents of dependent students who filed a FAFSA to have the IRS verify if no tax return was filed. If you fit this category and did not file a 2016 tax return, you must request a Verification of Nonfiling Letter from the IRS and submit the nonfiling letter as part of your financial aid application materials. For more information on nonfiling letters, see the [IRS Transcript Types Web page](#).

DO NOT list AU as a third-party recipient when requesting your nonfiling letter. You should have the IRS send the document directly to you; then you should submit a copy to Student Financial Services.
